CAREER OBJECTIVE

Motivated Front-End Developer with 2 years of experience building responsive, high-performance web applications using React.js, Next.js, TypeScript, and Tailwind CSS. Skilled at transforming Figma/XD designs into clean, pixel-perfect interfaces, enhancing user experience, and collaborating with teams to integrate APIs, ensure smooth data flow, fix UI issues, and optimize performance. Familiar with Vue.js basics and committed to continuous learning, contributing to team discussions, and applying modern frontend practices to create refined digital experiences.

EDUCATION

Bachelor's degree in Electronics and Communication Engineering.

6th October High Institute for Engineering & Technology | 2017 – 2022

- **Major:** Electronics and Communication Engineering
- **Graduation Project:** Image Detection and Recognition System – Developed an object and face recognition system using Raspberry Pi, Raspberry Pi Camera, and sensors. Implemented with Python and OpenCV, integrated with a speaker to provide real-time audio feedback when an object or person is detected.

CERTIFICATIONS & TRAINING

- **Upskilling** – Advanced Frontend Development Program (*Aug 2024 – Oct 2024*).
- **EraaSoft** – Frontend Development Track (*Jan 2023 – Aug 2023*).

LANGUAGES

- Arabic: Native proficiency
- English: Intermediate proficiency

MILITARY STATUS

- Final Exemption Certificate Issue

PROFESSIONAL EXPERIENCE

Front-End Developer

Valkii – Jordan – Remote | Dec 2023 – Present

- Engineered 7+ client-facing web apps using React.js, Next.js, TypeScript, and Tailwind CSS.
- Translated Figma wireframes into responsive, reusable React components.
- Spearheaded frontend for a large B2B platform with multi-user login, notifications, and real-time chat via Pusher.
- Amplified Lighthouse performance scores by 40% via implementation of lazy loading and dynamic imports
- Reduced bundle size by 28% with code splitting and dependency optimization.
- Crafted 25+ reusable UI components to accelerate development and ensure consistency.
- Curtail development time by 30% through contributions to internal design systems and tooling.
- Collaborated with backend developers to integrate REST APIs securely using Axios and Fetch.
- Fixed UI bugs, reduced bundle size, and ensured cross-browser/device compatibility.
- Facilitated collaboration across multidisciplinary teams during biweekly Agile sprint cycles

SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS.
- **Frameworks:** React.js, Next.js.
- **Libraries:** Redux, Redux Toolkit, Zustand, Context API, React Query, Tailwind CSS, Bootstrap, MUI, Chart.js, Swiper, React-hook-form, Formik, Yup, Zod, Axios, Three.js.
- **Tools:** Git, GitHub, Postman.
- **Core Competencies:** Responsive Design, Performance Optimization, SSR/SSG, API Integration, Authentication & Authorization (JWT), DOM Manipulation, CRUD Operations, Component Reusability, Web Accessibility, Validation.
- **Soft Skills:** Communication, Problem-Solving, Time Management, Collaboration (Agile).

PROJECTS & EXPERIENCE

ReachMagnet (B2B Networking Platform)

Tech: React.js, JavaScript, Bootstrap, Chart.js, Zustand, Formik, Yup, Pusher, and Axios.

- Built a B2B networking platform with multi-user login and role-based dashboards.
- Implemented a 3-step quotation system (buyer request, seller pricing with tax, buyer approval/rejection).
- Developed real-time chat and notifications using Pusher for seamless communication.
- Created business/user registration flows (4 steps) with Yup for validation, and Formik to handle forms.
- Integrated package system (Trial, Basic, Premium) with feature-based permissions.
- Enhanced UI/UX with responsive design, Swiper for carousels, and Zustand for scalable state management.
- [\[Live Demo\]](#) [\[GitHub Repo\]](#)

Ooners (Real Estate Investment Platform)

Tech: Next.js, TypeScript, Tailwind CSS, Zustand.

- Developed a platform to connect property owners with multiple investors.
- Designed investment workflows showing property price, share percentage, and expected returns.
- Implemented state management with Zustand for scalable and reliable data handling.
- Optimized for static site generation (SSG) during production phase to improve performance.
- Collaborated with stakeholders to shape features for property listing, investment tracking, and user dashboards.
- Built responsive and modern UI using Tailwind CSS.
- [\[Live Demo\]](#) [\[GitHub Repo\]](#)

Portfolio Website (Personal Project)

Tech: React.js, JavaScript, Three.js, R3F, Tailwind CSS, Framer Motion, React-Tilt, react-vertical-timeline

- Developed a modern, interactive portfolio to showcase projects, experience, and technical skills.
- Implemented 3D visuals and animations using Three.js, R3F, and maath, enhanced with smooth motion effects from Framer Motion and interactive depth using react-parallax-tilt.
- Integrated a timeline-driven experience with react-vertical-timeline-component and styled the interface using Tailwind CSS for a responsive, elegant layout.
